957****R01-09-001 - Order Instituting Rulemaking on the Commission's own motion to assess and revise the new regulatory framework for Pacific Bell and Verizon California Incorporated (Verizon).**

I01-09-002 - Related matters. This interim decision addresses the Office of Ratepayer Advocate's (ORA) audit of Verizon. The decision adopts the parties' settlement of most audit issues, with certain conditions. With respect to the main issue that was not settled, the decision (1) finds that the earnings of Verizon's telephone directory affiliate that exceed a rate of return (ROR) of 11.5% should be reflected in the regulated earnings of Verizon, and (2) expands the scope of Phase 3 of this proceeding to consider what ROR should be used in the future to determine the existence and amount of any excessive earnings of Verizon's telephone directory affiliate. The decision declines to adopt ORA's recommendation to reduce Verizon's rates by \$104 million in response to misallocated costs and revenues that were discovered by ORA's audit. Instead, the decision orders a separate phase of this proceeding to determine whether Verizon has violated any rules of the Commission and whether penalties are warranted. Finally, the decision declines to adopt ORA's proposal to make Verizon's allegedly excessive earnings subject to refund, and expands the scope of Phase 3 to include the issue of whether Verizon's earnings are excessive.

I00-11-052 - Investigation on the Commission's own motion into the operations, practices, and conduct of Qwest Communications Corporation (Qwest), and its wholly owned subsidiary, LCI International Telecommunications Corporation, dba Qwest Communications Services (LCIT), to determine whether Qwest and LCIT have violated the laws, rules and regulations governing the manner in which California consumers are switched from one long distance carrier to another and billed for long distance telephone services.

This decision finds that Qwest and its wholly-owned subsidiary, LCIT violated Public Utilities Code § 2889.5 and § 2890, as well as other statutes, in the course of their marketing activities, and that sanctions are warranted for these violations. Primarily in 1999 and 2000, Qwest failed to adequately supervise its sales agents so that the agents switched thousands of customers' long distance telephone service without their permission in violation of Section 2889.5. In some cases, the third-party verification tapes or letters of authorization confirming the switches were falsified, and Qwest failed to retain third-party verification tapes and make them available to the customer and the Commission. Qwest also violated § 2890 by placing unauthorized charges on thousands of customers' telephone bills.
